

Orux maps – map download 31/8/2022

Setup

Google Pixel 4a, Android 13

Orux maps version 9.0.4, paid (€4)

URL for manuals

Available in Spanish, English, Italian & French - I'm using the English version.

<https://www.oruxmaps.com/cs/en/manual>

Map files location

1. Pixel doesn't have an SD card slot so skipped the bit about changing the default file location.
2. This is the correct path when the Pixel is plugged into File Explorer on Windows

[This PC\Pixel 4a\Internal shared storage\Android\data\com.orux.oruxmapsDonate\files\oruxmaps\mapfiles](#)

3. Copy the Germany premium gmapsupp.img file (same version as downloaded for my Garmin eTrex) to this location.

It's a good idea to rename it: otherwise you just see gmapsupp.img, e.g. to OMTB_Germany

4. Click the update icon (highlighted) & success!
